

Dokan Migrator Plugin

The [Dokan Migrator plugin](#) will help marketplace owners easily migrate to Dokan from WCFM, WC Vendors, and YITH. Marketplace owners will be able to migrate the vendors, orders, and withdraw records from these marketplace platforms to Dokan with ease. We are going to show you how.

Let's start with migrating from WCFM to Dokan.

How to Migrate to Dokan from WCFM

You can easily migrate to Dokan from WCFM using the Dokan Migrator plugin. This plugin will migrate the vendor list, and order list, and withdraw records from vendors.

Let's say you have a marketplace built with WCFM. Here's what your WCFM marketplace dashboard may look like,

Dokan Migrator 2

Note: You have to Install the Dokan Lite version before installing Dokan Migrator.

After activating the plugin, you will see a banner where you will see a button to go to the Migrating dashboard.

However, you can also start the migration process from the **Tools-> Dokan Migrator** section.

In the migratory dashboard, you will see all the details you can migrate from WCFM to Dokan. Like, the number of vendors, orders, and withdraw.

Click on the **Start Migration** button to start the migration process.

Latest Announcement [See All](#)

And the details of Store 2 in Dokan,

Dashboard

Note: You will notice a difference in total sales in Dokan and WCFM. In WCFM the total sales of Store 1 are showing \$3690 and Store 2 is \$4277. Whereas in Dokan, those numbers have increased to \$3895 and \$4501 respectively. That is because Dokan shows the total sales after adding the Tax and Shipping charges as well. That is why you can see an increase in the number.

You can see from the overall reports of Dokan,

The screenshot shows the Dokan v3.7.0 dashboard with a sidebar and a main content area. The 'All Logs' report is displayed, showing a table of orders with columns for Order ID, Store, Order Total, Vendor Earning, Commission, Gateway Fee, Shipping, Tax, Status, and Date.

Order ID	Store	Order Total	Vendor Earning	Commission	Gateway Fee	Shipping	Tax	Status	Date
#78	Store 2	\$57.75	\$45.00	\$12.75	\$0.00	\$0.00	\$2.75	Completed	Oct 6, 2022
#77	Store 1	\$18.90	\$8.00	\$10.90	\$0.00	\$0.00	\$0.90	Completed	Oct 6, 2022
#72	Store 1	\$1,692.60	\$890.00	\$802.60	\$0.00	\$10.00	\$80.60	Completed	Oct 6, 2022
#64	Store 2	\$4,443.60	\$3,192.00	\$1,251.60	\$0.00	\$10.00	\$211.60	Completed	Oct 6, 2022
#63	Store 1	\$2,184.00	\$920.00	\$1,264.00	\$0.00	\$10.00	\$104.00	Completed	Oct 6, 2022

This is how you can migrate to Dokan from WCFM with ease.

Migrating from WC Vendors to Dokan

If you want to migrate from WC Vendors to Dokan, then the process is the same as above. But you have to remember a few points-

1. After migrating to Dokan from WC Vendors, navigate to Dokan-> Tools and click on the **Create Pages** button. Otherwise, the Dokan Dashboard page will not work.
2. If the orders were "**On hold**" status in WC Vendors before migrating, then those orders will not show in the **Vendor Earnings** after migrating to Dokan. The orders need to be in "Processing" or other status for them to show in the vendor earnings option in Dokan.

Dokan Product Duplicator

[Dokan Product Duplicator](#) copies products from one vendor to another and it is a tool for the vendors only. The Dokan Product Duplicator documentation describes how you can use this free feature for your Dokan-powered eCommerce store.

Configuration

There is only one setting to change the duplicator button text from **WP-Admin** → **Dokan** → **Settings** → **Selling Options**. If you scroll down you will see in the vendor capability section, you need to select "*Allow vendors to copy other vendors product to their store*"

Vendor Capability

- New Vendor Product Upload** Allow newly registered vendors to add products
- Disable Product Popup** Disable add new product in popup view
- Order Status Change** Allow vendor to update order status
- New Product Status**
Product status when a vendor creates a product
- Duplicate product** Allow vendor to duplicate their product
- Edited Product Status** Set Product status as pending review when a vendor edits or updates a product
- Product Mail Notification** Email notification on new product submission
- Product Category Selection**
Select a category type for Products
- Vendors Can Create Tags** Allow vendors to create new product tags from vendor dashboard.
- Discount Editing** Allow vendor to add discount on product
 Allow vendor to add discount on order

Usage

Category: **Albums.**

Sellers can now see a button **“Add To My Store”** to copy product in each and every product page. Click on that button and the system will take you to the create new product page with the pre-loaded data from the original product. Now you can make the changes you wish and hit the Update Product button.

Translation Text Domain

You have to rename the .mo file according to this format for translating: pluginname-languagecode_countrycode.mo

for this extension, just rename the .mo and .po file to the following -

dokan-duplicate-product-languagecode_countrycode.po/mo

For example, in case of French Language, the code will be- dokan-duplicate-fr_FR.mo

[You can also view the full documentation on how to translate Dokan extensions.](#)
