

## #1 Private video hosting Platform.

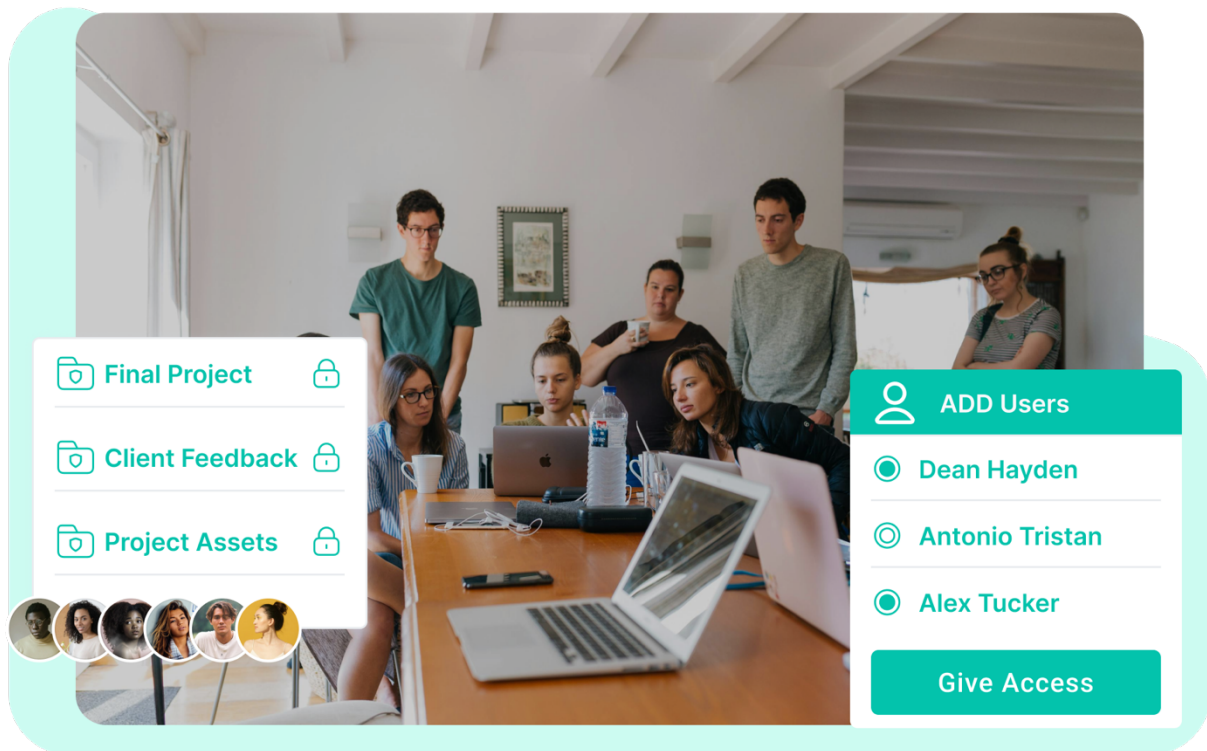

Secure your content from prying eyes whether it is a corporate video, an online course, or a personal video message, and ensure that only the intended viewers have access.

Never compromise on your **privacy**

See how we protect your important videos & audio content at no extra cost to you.

## Password Protection

Lock your videos, audio content, and playlists with passwords to restrict public access. Only the viewers you've provided the password to can unlock and watch the content. You can lock a single media file, collection/playlist, or entire project.

## Domain Restriction

Control where your videos, audio content, or playlists can be embedded and played. You can allow single or multiple domains. Do not allow pirates and unauthorized persons to share and embed your videos on their websites.

## Private Link Sharing

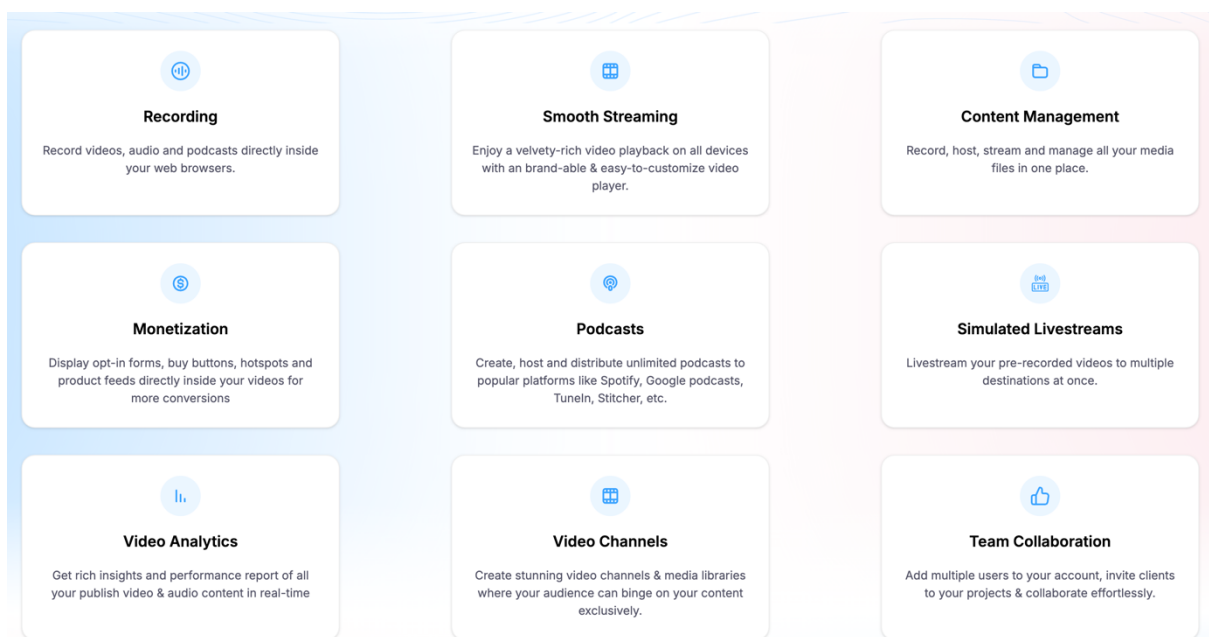

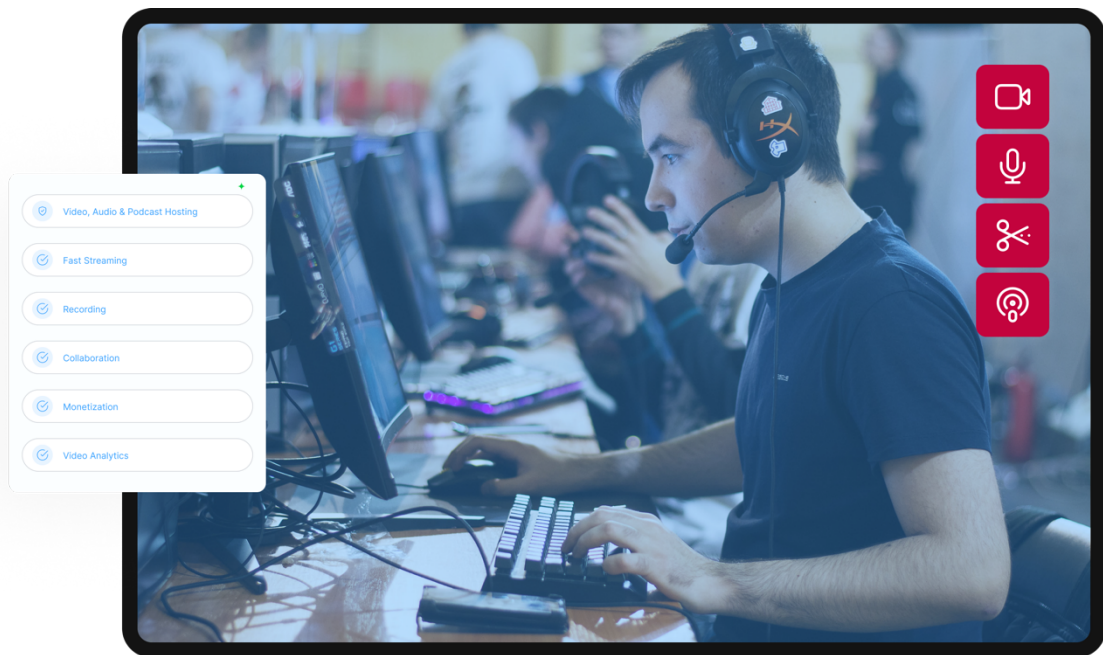

This is the best private video hosting platform for businesses as we keep all your videos private by default, they're blocked from search engines and can't be found publicly online except. Only viewers you've shared links with can watch the video.

## Set Permissions & Collab in Private

Whether managing a client's project or handling internal content that's team-only? Set your view permissions to collaborators only. Invite your team and clients to the project, share files, review comments and feedback while controlling who sees what.

## Share Videos Securely

Everything you need to host, manage, share, and promote your content all in one place
