

IP ADDRESS LICENSING CONTENT SECURITY

Restrict Videos To Play on Specific IP Addresses

Limit video access to trusted networks only, ensuring control over where your content is viewed.

Online Video Playback IP Restriction

Secure Video Messages

Prevent Piracy & Theft

Prevent Unauthorized Viewing

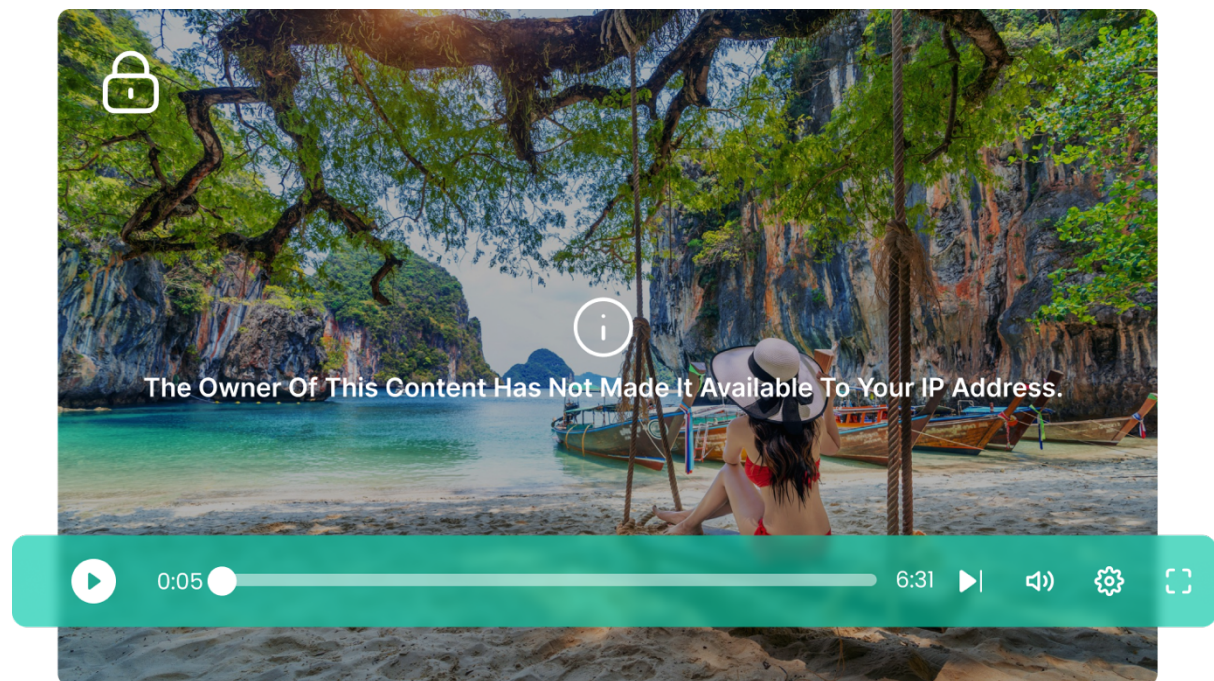

Prevent Internal Communication

Secure Pre-Release Films

Restrict IP Address of Spammers

Businesses, Filmmakers & Creators Rely on

IP Address Whitelisting for Maximum Content Privacy

Restrict Videos To The Company's IP Block

Internal content like employee training, staff review videos, and team video messages are restricted to the company's IP network

Restrict Videos To The Company's IP Block

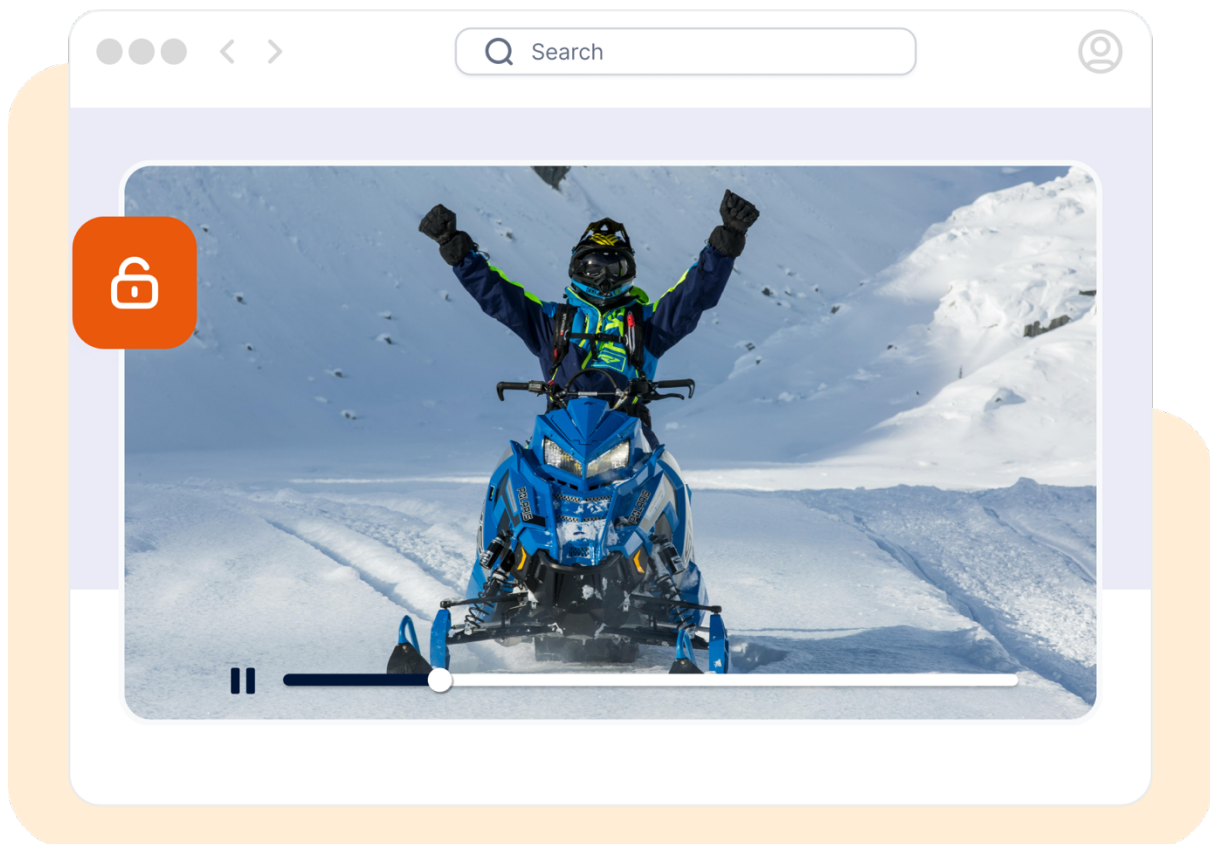

Spammers and attackers flooding your internal content or public pages and burning through your bandwidth can be denied access easily by blocking not only their IP addresses individually but their entire IP blocks.

Share Your Videos with a Specific Individual or Groups

Use IP address restriction when sharing private videos with sensitive information so only the persons on the IP addresses you've allowed can watch the videos.

Restrict Pre-Release Films & Screening to Specific Studios, Streaming Houses & Partners

To avoid piracy and leaks on films when giving industry partners early screening access, whitelist only the IP addresses of the film houses and partners to protect against unauthorized access.

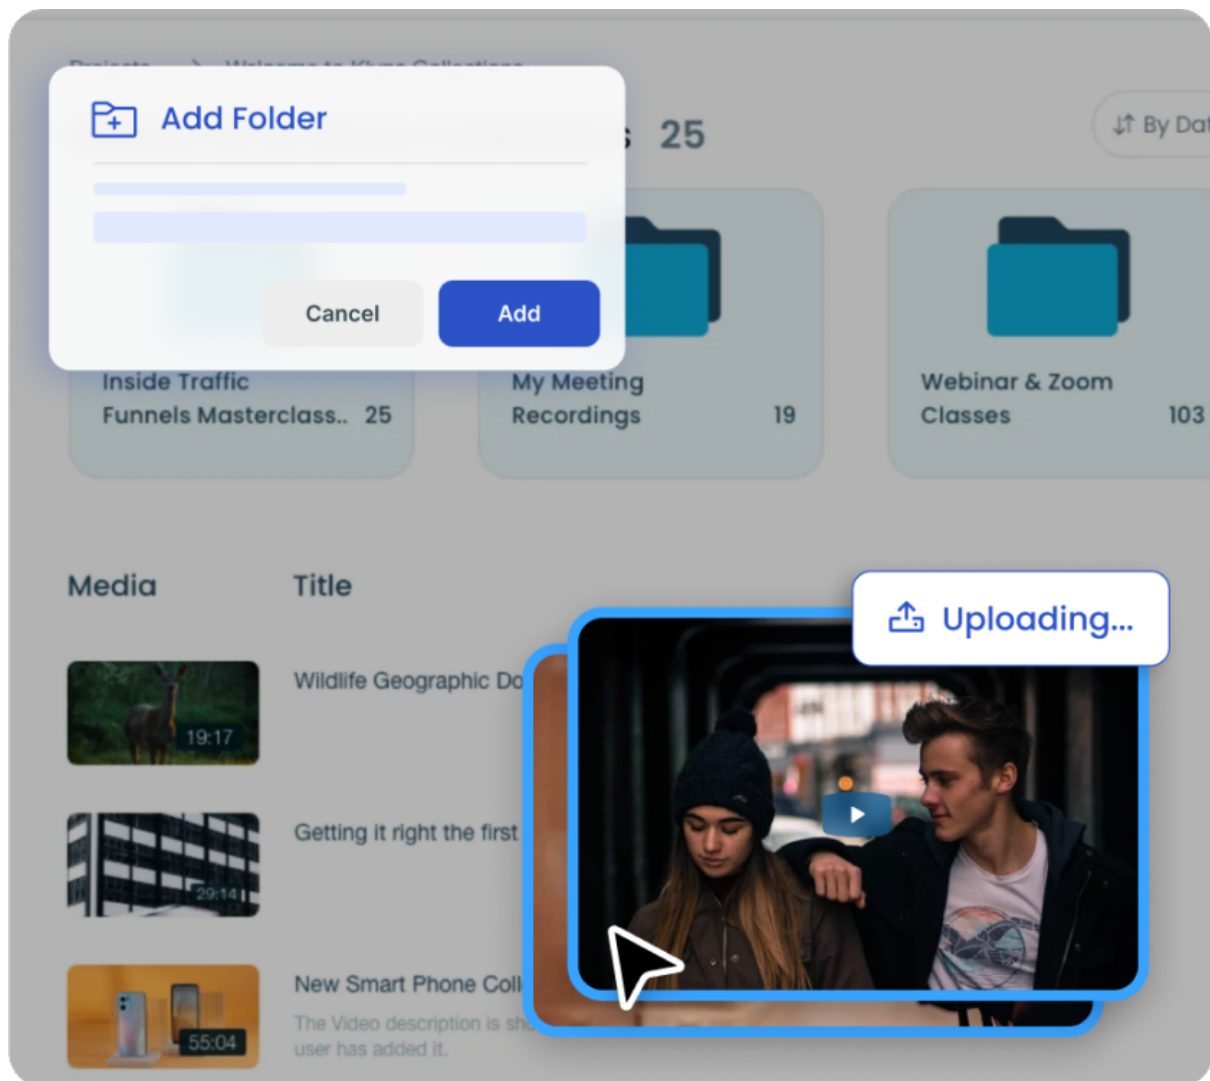

Secure Video & Audio Delivery Always

Our platform offers several features to ensure your content is protected both in storage and during delivery including multi-DRM encryption, HTTPS-only streaming, viewer authentication, domain whitelisting, and more importantly IP address licensing.

Combine IP Address Whitelisting + Other Security Protocols for Maximum Protection

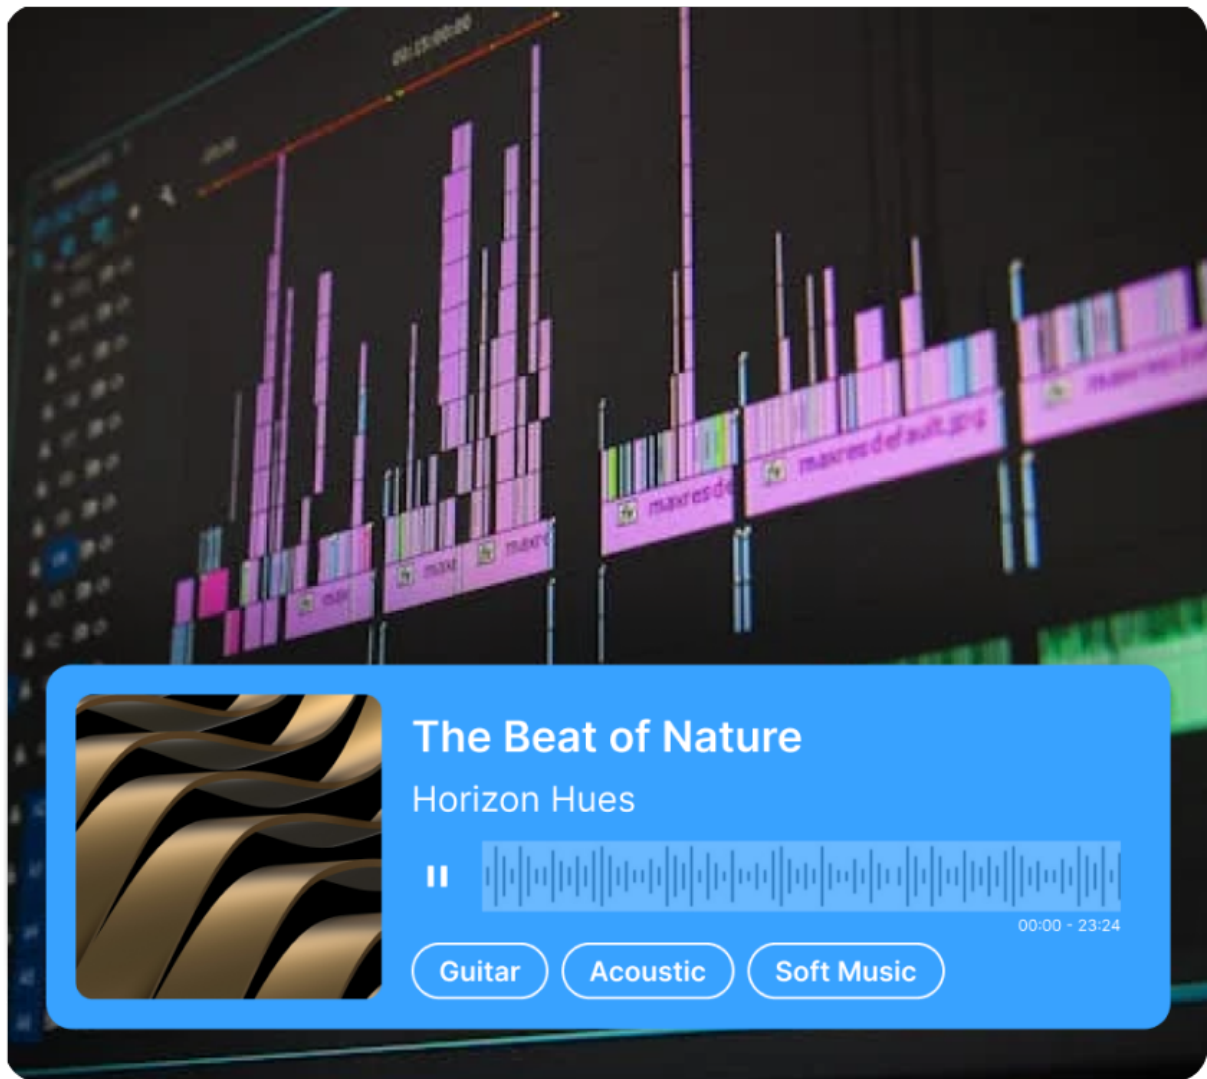

True security is never achieved in isolation. When you host with SUPA-eCart you'll enjoy a unified security system that works in harmony and compliments each other so well that no one will get past your gate if you don't let them in.
